

KOLTE PRESSING

GLOBALLY INNOVATIVE

Worldwide Business Partners

We are proud of our global associations,
delivering solutions across countries,
reinforcing a strong global presence.

Welcome to Kolte Pressing Works!

Bringing you a legacy of more than 29 years, Kolte Pressing Works laid foundation in 1996. Located in Pune, India, our humble yet power-packed beginnings built not just a company but a family-driven powerhouse - dedicated and passionate about revolutionizing the **automotive, general engineering, and material handling, oil & gas, construction, power transmission sectors** with dynamic solutions.

At Kolte Press, we pride ourselves on our unwavering commitment to quality and innovation. From our inception, we embarked on a mission to cater to the evolving needs of multiple engineering companies, setting the stage for excellence from day one.

Our manufacturing plant boasts power presses ranging from **20 to an impressive 500 tons**, alongside a meticulously equipped tool room staffed by skilled personnel.

In 2012, we took a monumental step forward by seamlessly integrating **24 CNC** machining & **9 VMC** Machine into our core operations. This forward integration not only expanded our capabilities but also reinforced our commitment to delivering the highest quality solutions tailored to our valued customers' needs in fully machined & assembled parts.

Join us on this journey where every part we produce tells a story of innovation and dedication. Experience service excellence, innovation, and cutting-edge solutions tailored just for you, at Kolte Pressing

Value Added Services

We understand that true service excellence extends beyond delivering exceptional products.

That's why we offer a comprehensive suite of value-added services aimed at fostering your growth. Our services include precision heat treatments, advanced surface treatments, and rigorous testing protocols. With KPW, you can trust in our commitment to enhancing your success through every step of the process.

1

Zinc Flake Coating

Our core strength lies in our advanced manufacturing capabilities, where precision meets innovation. With a relentless focus on quality assurance and expertise-driven production processes, we excel in delivering exceptional value to our clients.

Sheet Metal Stamping

KPW manufactures precision sheet metal stamping parts ranging from 0.020 kg to 5.5 kg using a variety of stamping presses & tools.

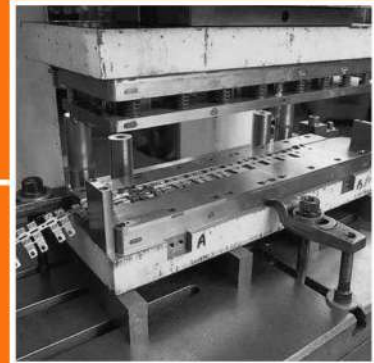

Precision CNC Machined Components

KPW products supplies precision CNC machined components to the oil & gas, construction, mining & general automotive engineering industries.

Value-Added Services

KPW provides a wide range of value-added services, including heat treatments, surface treatments, assemblies testing etc.

Manufacturing Capabilities

Manufacturing Resources

List Of Resources			
Sr.No	Machine	Description	Quantity
1	Pneumatic Power Press	1000 x 600	1
2	Pneumatic Power Press	1000 x 600	1
3	Pneumatic Power Press	1200 x 800	3
4	Pneumatic Power Press	1600 x 900	1
5	Pneumatic Power Press	1600 x 900	1
6	Pneumatic Power Press	1600 x 1100	1
7	Pneumatic Power Press	1500 x 1100	1
8	Mechanical Press		2
9	Mechanical Press		3
10	Spot Welding	50 KVA	3
11	Projection Welding	150 KVA	1
12	Flatening Machine	Dia 200 x 2.5 mm	1
13	Flatening Machine	Dia 200 x 2.5 mm	1
14	Vibro Machine	200 KG	2
15	Drilling Machine	60 mm	3
16	M1 TR		1
17	Generator DG Set	315 KVA	1
18	Compressor	18 HP	1
19	Laser Marketing		1

With our strong technical & innovative capabilities, we manufacture & deliver high-quality products at competitive prices. Our state-of-the-art production & quality facilities are equipped to meet the diverse needs of our domestic & global clients, ensuring excellence in Quality, Quickness, & Quantity.

11	VMC Machine	LMW	4 Axis	1

Sustainable

Aligned with our dedication to environmental stewardship, every conservation effort brings us closer to our goal.

We are pleased to announce our significant progress in embracing green energy initiatives. We have recently installed a **125KW solar power system atop our plant**, marking the first phase of our ambitious project. The second phase will see the installation of an additional **100KW capacity**. These efforts underscore our dedication to reducing our carbon footprint and embracing sustainable practices.

Rain Water Harvesting

Environment Friendly Packing Material.

Recycling of Cutting Fluid.

We have already started to give **CBAM** reports to our expert customers.

Quality Assurance

Customer Focused QMS

1

**Certified IATF 16949:2016
& ISO 9001:2015**

2

**VDA 6.3 Process for
Product Quality**

3

**Quality Separate From
Production**

4

Digitilization Of QMS Process

5

**Raw Material Batch Clarification
with 3.1 Inspection Certificate**

6

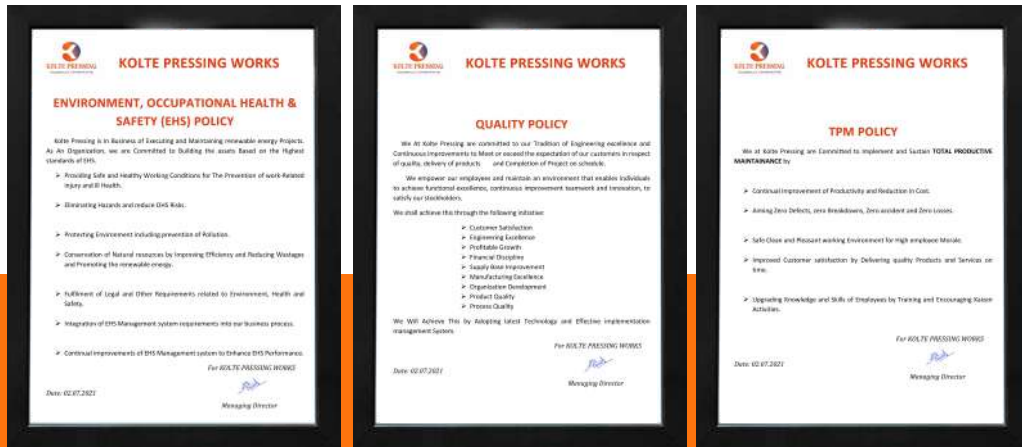

**Continual Improvement through
Total Productive Maintenance (TPM)**

7

We uphold excellence standards without compromise, prioritizing a customer-focused approach and backed by industry-leading certifications, ensuring top-quality products.

Policies & Certificates

Policies and certifications are a reflection of our commitment to excellence—a commitment that defines who we are and sets us apart among competition

Why KPW?

Global Experience

- Team knowledgeable in global quality requirements
- Proven track record in export business to EU & USA
- Expertise in lead time and stock management

Risk Handling

- Planning made in SAP (missing out is not a case)
- Safety stock management
- Bulk raw material purchase strategy
- Full control over all processes by KPW

Quality

- Quality separate from production
- Well qualified team
- Customer focused QMS

Inhouse facilities

- Tool manufacturing in-house
- Coating process with sister concern
- In-house stamping and machining
- Internal welding, cleaning, etc.
- Ultrasonic Cleaning
- Laser Marking

**0 PPM
Accidents
Complaints**

At KPW, we lead by example with our experience, expertise, and commitment to excellence. From superior quality and customer experience to in-house facilities and robust risk management, we stand strong, setting ourselves a notch above the competition
